

# Talking Chips

Cut apart. Each contribution spends one chip.

## CHIP 1

Use this chip when you contribute. Listen for space where another voice is needed.

## CHIP 2

Use this chip when you contribute. Listen for space where another voice is needed.

## CHIP 3

Use this chip when you contribute. Listen for space where another voice is needed.

## CHIP 4

Use this chip when you contribute. Listen for space where another voice is needed.

## CHIP 5

Use this chip when you contribute. Listen for space where another voice is needed.

## CHIP 6

Use this chip when you contribute. Listen for space where another voice is needed.
