

# Accountable Talk - Student Moves

Use talk moves to be accountable to the community, the knowledge, and the reasoning in the discussion.

---

## BUILD THE COMMUNITY

- I want to build on...
- I heard \_\_\_ say...
- Can you clarify...
- I agree / disagree because...

## GROUND THE KNOWLEDGE

- What evidence supports that?
- Where did that information come from?
- Which detail matters most?
- Does the source/data actually show that?

## STRENGTHEN THE REASONING

- What is the link between those ideas?
- What assumption is underneath that?
- Does the conclusion follow?
- What counterexample should we test?
