

Science Talk

Use a big question to build and revise explanations together using observations, evidence, and scientific reasoning.

BIG QUESTION / PHENOMENON _____

NAME _____

MY CURRENT EXPLANATION

What do you think is happening, and why?

OBSERVATIONS / EVIDENCE

What observations, data, experiences, or prior science ideas support or challenge it?

IDEAS I HEARD & BUILT ON

What classmate idea helped you think differently or more precisely?

REVISED EXPLANATION / NEXT QUESTION

What changed? What do you want to test, observe, or investigate next?
