

Inquiry Cycle

Use questions and evidence to move from curiosity toward an explanation - then ask what comes next.

PHENOMENON / TOPIC

NAME

NOTICE / WONDER

What do you observe? What is puzzling, surprising, or worth investigating?

QUESTION

What question can guide a real investigation?

PLAN / EVIDENCE

What information, observations, sources, or tests could help?

FINDINGS

Record patterns, results, contradictions, and uncertainties.

EXPLANATION

What do you now think, and what evidence supports it?

NEXT QUESTION

What remains unresolved? What would you investigate next?
