

Open-Ended Problem Solver

Choose a route, make your reasoning visible, compare strategies, and extend the problem.

PROBLEM

NAME

UNDERSTAND

What is known? What is unknown? What conditions or constraints matter?

POSSIBLE APPROACHES

List or sketch more than one way you might begin.

TRY + RECORD

Carry out a strategy. Keep enough work to explain your thinking.

COMPARE / REVISE

How does another approach differ? Is one more efficient, general, or convincing?

EXTEND

Change a condition, generalize a pattern, or create a related problem.
